-: Press Release: -

The truth of Left perpetrated violence in JNU stands exposed.

In a large number of universities across the country, including Jawaharlal Nehru University, the Left organizations are continuously and violently targeting the students who dare to disagree with them. Today, in the impartial probe by the Delhi Police, the name of four Leftist organizations got revealed- AISA, AISF, SFI, DSF.

It has already been established that when the students were willing to register for the next semester, they were forcefully stopped and beaten by the Leftists. It is important to highlight that the conspiracy to spread violence was hatched and executed by the Leftist organizations of JNU. ABVP activists and common students registering for next semester were targeted in that violence, as a result of which, today many ABVP activists and common students are injured in Left perpetrated violence.

Left-wing political organizations are doing unfortunate activities to create an atmosphere of destabilization in the universities and destroy the environment of learning and research. They need to stop such violent acts at the first place, and then they should understand that universities are primarily a place of dialogue, and not for taking resort to the violence in order to compensate for their declining political condition.

ABVP National General Secretary Nidhi Tripathi states, "Students who have disagreed with Left have always been subjected to violence by Left-wing student political organizations in JNU, also the students who dare to disagree with the Communist ideology are discriminated hugely by the Left-wing professors in the faculty. The names of Leftist organizations and Left leaders involved in JNU violence has surfaced in preliminary inquiry of the Police. We are hopeful that strict action will be taken against these people."

(This Press Release has been issued from ABVP Central Office, Mumbai by Central Office Secretary Neeraj Choudharkar.)
