The decision of making 50% seats in private medical colleges as per with government medical colleges is welcome: ABVP

The decision of NMC of approving the long-standing demand of ABVP of charging fees of 50 percent seats of private medical colleges as per the fees of government colleges is welcome. This decision will reduce the economic burden and will help a large number of students coming from poorer sections of society to get quality education.

Ever since the formation of the proposed NMC in the National Education Policy, ABVP was demanding that the government should take necessary steps to provide relief to the students from the heavy fees in private medical colleges.

Dr. Virendra Singh Solanki, National Convener, MeDeVision, said, "The historic decision taken by NMC of reserving 50% seats according to the fees of government medical colleges in private institutions is welcome."

National General Secretary of Akhil Bharatiya Vidyarthi Parishad Ms. Nidhi Tripathi said, "This step, realizing the public friendly education mentioned in the National Education Policy is welcome by the student community. This will help a large number of students to get a medical education. Taking this initiative forward, students of all disciplines should be given relief."
